Dual Enrollment at Diman

Dual Enrollment is a statewide program offering high school students the opportunity to complete college courses and earn college credit while attending high school. At Diman, students have the opportunity to take Dual Enrollment courses either in addition to their regularly scheduled courses or as replacement for their regularly scheduled courses. In some cases, Dual Enrollment courses may be included in the computation of class rank and grade point average and may also be considered as part of students' graduation requirements. Students who wish to take advantage of Diman's Dual Enrollment program must meet with their guidance counselor to determine if they meet the eligibility requirements.

Getting Started: A Step-By-Step Guide

Students interested in Diman's Dual Enrollment program should meet with their guidance counselor to determine eligibility. Following this meeting, eligible students should:

1. Complete the Accuplacer and all required placement exams
*Note: Placement exams determine course placement. They do not determine admission.
2. Discuss financial aid and course costs with their guidance counselor
3. Complete and submit all Dual Enrollment prior approval paperwork; the Principal must sign this form before it is submitted to for final approval
4. When requesting course replacement, be sure to state which Diman course will be replaced; course credits should be discussed with the student's guidance counselor
5. Send an official college transcript to Diman once the Dual Enrollment course has been completed
