

Hi my name is Mary Elizabeth Perry and I am the Parent Liaison at Diman Regional High School

My goal as parent liaison is to help parents and guardians remain involved in their student's education using their natural skills, talents, and their voice whenever possible.

At Diman we have two dynamic parent groups where I act as the liaison between parents and guardians and administration whenever necessary. I also help develop parent Forums.

Parent Forums are gatherings, or in some cases, virtual gatherings, that take place approximately every other month. The topics are primarily generated by parent feedback and cover material relevant both inside and outside the building. Parent Forums offer an excellent opportunity for questions and answers between families and the presenters.

Links for the groups and events as well as contact information can be found on the parent tab located on the Diman website. All parents and guardians of all students are welcome. Join us as we strive to strengthen advocacy through information.
