

## Grading and Class Conduct Agreement

This is a teacher and student agreement for the calculation of the student's grade and class conduct for the Graphic Communications Related classroom. The Graphic Communications Related classroom grade is calculated by the following:

- Homework 30%
- In Class Assignments and Quizzes 30%
- Tests 40%
- When all of the above is tallied 100%

<b>Homework</b>	Assignments will be given during the Related classroom time and expected to be completed for the next Related class unless otherwise noted by the teacher. Any homework handed in after the deadline will be considered late and receive an additional 10 point deduction in grade <i>per</i> day late. Each student is required to have a binder and notebook specifically for Related. Binders are to be kept organized and in good condition.
<b>In Class Assignments and Quizzes</b>	Students will be given quizzes and in class assignments throughout each cycle. These are to be completed within one class period and passed in to the teacher before the student exits the classroom at the end of the period. <b>Students have one cycle to complete missing quizzes.</b> After one cycle, the grade will remain zero.
<b>Tests</b>	Tests will be given to measure performance for units, projects, vocabulary and lessons. If the student is absent, <b>the student has one cycle to complete the missing test.</b> After one cycle, the grade will remain zero.
<b>Class Participation</b>	There is no individual grade for class participation. However, you will receive bonus points that can be applied to a test of your choosing. Class participation consists of verbal student participation in response to teacher-led discussions. You are expected to have read the chapter before the start of the cycle and we will not be reading the chapter in class.
<b>Laptops</b>	Each student will be assigned a specific laptop to utilize during the Related class time. Laptops are not to be removed from the Related area. Laptops are property of Diman RVTHS and will be respected by the student. If it is found that a student is using a laptop inappropriately, is on a website they were not direct to go to, or using the laptop in any other manner that is considered to be irresponsible the student will lose all privileges of using a laptop. If the student would like to gain access to the laptops again, the student will need to take it upon his/herself to request a meeting with the teacher, parent/guardian, and guidance counselor to discuss what is the appropriate use of a school issued laptop.

*I have read, understand and agree to the above grading and class conduct agreement.*
