Grade 9 Materials Required – Mathematics Department

All grade 9 students are expected to be prepared for class with the following supplies to be successful in a mathematics course at Diman Regional in addition to a school bag (backpack) and school-issued student IDs & student agendas:

- A textbook cover (paper or “jumbo” sized cloth *without* an adhesive backing)
- A 3-ring binder 1.5” or 2” in diameter (preferably with pockets)
- A supply of filler paper for the binder
- A supply of pencils with erasers
- A supply of pens
- A TI 84+ CE graphing calculator*
 - 8 size AAA alkaline batteries
 - Batteries must be new and all the same brand
- A school-issued Chromebook with optional case**
- Other basic supplies as required by your teacher (i.e. dividers, index cards, highlighters, folders, etc. are used by some teachers but not all)

*A graphing calculator will be provided. Students may purchase their own device instead of borrowing from the school to avoid incurring damage/replacement costs if not returned in the same condition issued. If a calculator is borrowed from the school, 8 AAA batteries will be required (4 to install immediately, 4 to keep in the school bag as spares) for TI-84+ S.E. graphing calculators.

**A Chromebook case is recommended, but is not required, to protect the school-issued Chromebook throughout the year.
